To Whom It May Concern,

“Our Father’s Children, Inc.”, has been a tremendous blessing in both of our lives. We know that God has worked through us in this incredible ministry. We have seen children grow not only physically but emotionally in Christ.

The goal of this ministry is to reach out to abused and neglected children; bringing hope to the future one child at a time. We believe this is happening by hearing about the choices the children are making when they are in their everyday surroundings. The children are taught in a loving way that they are never alone as long as they rely on Christ. For many, it is their first time to hear that they are loved no matter what their past or present situation may be and the joy in the eyes make all of the work worth it. We have both been participating in this ministry for 5 years and feel honored to serve as counselors. We have shared many personal experiences with our campers. We have laughed and cried many times with the children always coming to the same conclusions that we are all God’s children and must trust in him. We pray together a lot with the children and thank God for putting us in each others lives. We believe that God’s plan it is to reach his children giving us his words, love, and patience to help transform them into believers who are loving, respectful, responsible, trusting, confident, and never alone when they go to him in prayer.

We love this ministry and have seen it change lives. We pray that the Lord allows us to serve him in it for many years to come.

God Bless You,
Doug & Lisa Tackett
